PERSONAL PROFILE

Based in the North West, I am a recent graduate from Edge Hill with aspirations of working within the web industry. I have recently completed a BSc in Web Design & Development, where I achieved an overall first-class classification.

I am an ambitious, personable and driven individual with a track record demonstrating passion, resilience and determination who now seeks a graduate opportunity to utilise my interpersonal skills, and to enhance the foundation of knowledge I have obtained throughout my degree. I possess a passion for working in the technology industry with keen interests in Web Development, UX, Software Development and Testing.

KEY SKILLS

- HTML
- CSS

EMPLOYMENT HISTORY

Michael Caunce Commercial Cleaning (owner)   April 2005 – September 2014

A self-employed commercial cleaning business started from the ground up, delivering domestic and commercial cleaning solutions throughput Lancashire.

The role contained a substantial amount of responsibilities, with many transferable skills obtained:

- Time Management
- Organisational Skills
- Communication Skills

- Pressure Management Skills
- Customer Relation Skills
- Project Management Skills

VOLUNTEER EXPERIENCE

RSPCA Preston   **August 2013 – September 2014**

My time spent volunteering with the RSPCA provided a sense of satisfaction and achievement by helping animals in need. Responsibilities included:

- Handling of Animals
- Public Safety

- General Maintenance
- General Staff Assistance

Volunteering with the RSPCA enhanced:

- Teamwork Skills

- Interaction Skills

Greater Manchester Fire & Rescue   **September 2013 – September 2014**

I volunteered with GMFRS to join a fantastic volunteer scheme and try to give back to the local community. A rigorous application process was completed consisting of a group challenge, one on one interview, and two inductions. Duties included:

- Hazard Perception
- Post Incident Team (PIT)

- Promoting GMFRS
- HST (Health Safety Checks)

Volunteering with the GMFRS enhanced:

- Active Listening
- Dependability

- Empathy
- Leadership

- Teamwork
- Patience

ACHIEVEMENTS

- 2017/2018 Scholar, recipient of the 'Academic Achievement Award' for achieving the highest average percentage mark in the computing department.

- I represented the University in Barclay's Technology Challenge 2016.

- I represented the university in various ROQ Defectives challenge.

- I represented the university by designing and building an interactive and animated 'Dinosaur' themed jigsaw puzzle which was on display in World Museum Liverpool.
